

Footway Maintenance in Your Area

Carriageway Surface Improvement
(Concrete Rehabilitation)

Roberts Road, Snodland

When we plan to carry out the work and how long it will take

This is to let you know that, as part of the on-going maintenance and improvement of the highway network, Kent County Council will be working to improve the road surface of **Roberts Road, Snodland, between the junctions of Birling Road and Godden Road.**

These road surface improvement works are programmed to start on the **15th August 2022**, for a period of **3 days**. These activities will be undertaken between the hours of **07.00 – 19.00** each day.

This type of work can be affected by bad weather, so if it is not possible for us to carry it out at this time, we will arrange a new date and let you know via a letter drop to your home. We will also put up signs along the road, before we start, showing the date we plan to start work.

During these essential works it will be necessary to close the road completely so that we can carry out the works safely for both the workforce and road users. The diversion route will be via Birling Road, St Katherines Lane and Godden Road (and vice versa)

What we plan to do

We will remove the existing thin tarmac road surface by a method known as fine milling and take the road back to concrete. The complete area will then be swept by a mechanical sweeper to ensure the concrete surface is clean and free of dust and debris. Following these preparation works, any defects in the concrete surface, such as cracks and joints, will be repaired using an inlaid buff-coloured joint sealant. If required, the existing manhole covers, and rainwater gully gratings will be adjusted or replaced to the correct level following the removal of the old tarmac surface. The final finished surface will be a fine milled concrete road.

Following completion of the concrete rehabilitation works, all associated road markings will be re-painted. The road will then be re-opened to traffic.

How you can help us

It is inevitable that residents and businesses near the works will experience some disruption and we apologise in advance for any inconvenience caused, but we will try to keep this to a minimum.

Access to properties within the closed section of road may need to be restricted for a short period whilst work is carried out in front of each property and across road junctions but will be provided as soon as it is safe to do so. Traffic Management operatives will be available at all our closure points to advise motorists on the most appropriate access route to their properties on each given shift.

We need your help to make sure the work is done as quickly as possible and to the best possible quality. **If your vehicle is usually parked on or adjacent to the carriageway, please make sure you park it somewhere else away from the site whilst the works are carried out, so the road is clear for us to undertake rehabilitation works.**

For your safety and the safety of our workforce, please drive carefully and slowly through the roadworks.

How to contact us?

If you need more information, you can visit our website www.kent.gov.uk/resurfacingupdates to view our programme & updates, to find out how we look after the roads throughout Kent or report any faults you find on our roads. You can also view our diversion/permit details at www.one.network. Alternatively, you can call us on **03000 41 81 81**.

WARNING – Beware Bogus Callers

Kent County Council Highways, Transportation and Waste do not allow works to be carried out on private properties. If anyone says they are working for us or our specialist contractors and offer to carry out any work for cash, they should be treated with caution. We advise you to contact Citizen's Advice on 03444 111 444 (Monday to Friday 9.00am to 5.00pm)
